Market and operations

Commercial property market

Norwegian Property estimates the office vacancy rates in Oslo at 5 per cent overall, 4 per cent in the city centre and 8 per cent in Nydalen. Moderate vacancy rates in the past few years have contributed to positive trends for rents. Office vacancy at Fornebu is 12 per cent. The prime yield for the Oslo CBD is expected to be increasing and is, for example, in Malling & Co's investor yield and sentiment survey for the third quarter of 2022 estimated at 3.75 per cent. Other analyses point to an increasing prime yield not yet clearly observed in the transaction market.

Liquidity in the bond market is low for property companies, and there have been a limited number of transactions in the third quarter. Most companies chose the bank market for financing. Liquidity is available, but most banks are much more restrictive on volumes now compared to last year.

The 10-year swap interest rate went from 3.2 per cent at the beginning of the quarter to 3.5 per cent at the end of the quarter. Inflation is high, and the central banks have hiked interest rates, both in European countries and in the US. The energy costs are also still very high.

The property portfolio

Key figures

Norwegian Property owned 29 investment properties as at 30 September 2022. These are primarily located in the central areas of the Oslo region. The company's properties mainly comprise office premises as well as retail and restaurant space along with the associated warehousing and parking for the office areas.

Total ongoing annual rental income (run rate) from the company's whole property portfolio was NOK 1.058 billion as at 1 October 2022. That represented a reduction of NOK 5 million since 1 July 2022. NOK 62 million of the run rate is related to the rental guarantee provided by the seller of the property at Snarøyveien 30. The overall financial vacancy in the property portfolio totalled 5.8 per cent, which is primarily related to the properties Sandakerveien 138-140 and Snarøyveien 36. The weighted average remaining duration of the leases was 5.1 years, and the average rent adjustment factor for the consumer price index was 99.9 per cent for the total portfolio.

The key figures above do not include space under construction as at 30 September 2022. Ongoing projects at the end of the quarter are specified in the table below.

Area Property		Tenant	Area	Compl.
Area	Property	renant	(sqm)	date
Aker Brygge	Tingvalla	GG Drift	300	Q2-23

New leases

New leases with a total annual rental income of NOK 3.2 million were awarded in the third quarter, while existing leases totalling NOK 20.8 million were extended. Expired leases totalled NOK 11.2 million. Therefore, the net increase in annual rents from leases during the third quarter was NOK 12.8 million.

Valuation of the property portfolio

Two independent appraisers have valued all the properties in the company's portfolio based on the same methods and principles applied in the previous periods. The accounting valuation as at 30 September 2022 is based on an average of the two valuations.

The environment and corporate social responsibility (CSR)

A new park was opened in Nydalen which will be accessible to everyone. The project has been an experiment, with the goal being to learn how to increase the use of recycled materials in projects. Through a conscious choice of solutions, vegetation and reusable elements, Norwegian Property has saved the climate and environment of 60 per cent CO₂e emissions. This means a save of 100 000 CO₂ equivalents, which corresponds to the development of an office building of 270 sqm. The climate and environmental impact has been calculated through a life cycle analysis (LCA) developed by the project supplier, Asplan Viak.

The park is equipped with exercise equipment and bicycle parking. Local artists have been given the job of decorating the park.

Norwegian Property has committed itself to UN Sustainability Goals no. 11 (Sustainable cities and communities) and no. 13 (Climate action). This park is part of the company's efforts regarding these goals.

Outlook

Norwegian Property manages modern and flexible properties located in attractive clusters near public transport hubs. The company has delivered strong and stable results from its operations and from fair value changes for its properties over a long period.

The company has three clusters for commercial properties - Oslo CBD, Nydalen and Fornebu - in addition to the investment in the residential developer Nordr.

Norwegian Property has a strategy for growth in its core commercial property business as well as an ambition to consider opportunities in other property segments. Norwegian Property will continue its efforts to expand and develop its business through additional acquisitions and by pursuing several interesting long-term development opportunities in the existing property portfolio.

Property values have risen significantly in recent years, which have been characterised by low interest rates, high demand for office space and rising rent levels. The property values at the end of the third quarter show a negative development in a more troubled market with rising interest rates, high energy costs and a worrying international geopolitical development. There is a risk of a further negative development in property values going forward.

Norwegian Property's financial position is sound, with a high equity ratio and a relatively low loan-to-value ratio. The company has a highly diversified portfolio of tenants in both the public sector and various private business segments. This contributes to the company being well positioned to handle the uncertainty and challenges ahead, together with a continued focus on the strategy of expanding and developing the business.

² The NOK 1.4 million share of negative equity for Forusbeen 35 is accounted for as a reduction of receivables.

The estimated fair value of financial instruments is based on market prices and valuation methods. For cash and cash equivalents, fair value is assumed to be equal to the book value.

Interest-bearing receivables and liabilities are measured at the present value of future cash flows. Account is taken of the estimated difference between the current margin and market conditions (market value higher than the book value of debt in the listing indicates a negative equity effect when the applicable borrowing margin is less favourable than current market conditions).

The fair value of financial derivatives (interest-rate and currency derivatives) is the estimated present value of future cash flows which is calculated by using quoted swap curves and exchange rates as at the balance sheet date. The technical calculations are performed by the banks.

Other receivables and other current liabilities are carried principally at fair value and subsequently measured at amortised cost. However, discounting is not usually considered to have any significant effect on these types of assets and liabilities.

Financial instruments at fair value through profit or loss are specified in the table below by the valuation method.

EPRA Performance Measures

EPRA (European Public Real Estate Association) is an association for the publicly traded European real estate sector. EPRA was founded in 1999 as a not-for-profit association. It has several hundred members, covering the whole spectrum of the listed real estate industry (companies, investors and their suppliers). EPRA's mission is to promote, develop and represent the European public real estate sector through the provision of better information to investors and stakeholders, active involvement in the public and political debate, promotion of best practices as well as the cohesion and strengthening of the industry. For further information, see www.epra.com.

EPRA has issued Best Practices Recommendations Guidelines on areas of reporting that are the most relevant to investors and where more consistent reporting across Europe would bring the greatest benefits in the overall transparency of the sector.

Norwegian Property report on the following EPRA Performance Measures. By the end of 2022, Norwegian Property will also report on the new Loan-To-Value (LTV) metric introduced by EPRA in March 2022.

EPRA Earnings

EPRA Earnings is a key measure of the underlying operating performance of the property portfolio and an indication of the extent to which current dividend payments are supported by earnings. EPRA Earnings is calculated based on the IFRS Earnings for the commercial property portfolio adjusted for changes in the market value of investment properties, changes in the market value of financial derivative instruments and the related tax effects.

¹ Earnings from the Nordr joint venture (JV) are adjusted for as it is related to the development of residential properties for sale, and they are not relevant for the measurement of the performance of the commercial property portfolio.

EPRA NAV Metrics

The EPRA NAV set of metrics make adjustments to the NAV per the IFRS financial statements to provide stakeholders with the most relevant information on the fair value of the assets and liabilities of a real estate investment company, under different scenarios.

EPRA Net Reinstatement Value (NRV)

The EPRA NRV metric assumes that entities never sell assets and it aims to represent the value required to rebuild the entity.

Investments in JVs are revalued based on an estimated fair value of such investments. The fair value on financial derivatives and deferred taxes on investment properties are excluded. Property transfer taxes do not normally apply to Norwegian transactions, and therefore such taxes are not included in the NRV calculation. The fair value of financial instruments, which are used for hedging purposes where the company has the intention of keeping the hedge position until the end of the contractual duration, is excluded. Under normal circumstances, the financial derivatives that companies use to provide an economic hedge are held until maturity and so any fair value movements will not crystallise.

EPRA Net Reinstatement Value (NRV)		30.09.2022	30.09.2021	31.12.21

Outstanding shares at period end (million)	Mill. shares	643.6	643.6	643.6
NRV per share (NOK)	NOK	25.07	23.79	25.17

EPRA Net Tangible Assets (NTA)

The EPRA NTA metric assumes that entities buy and sell assets, thereby crystallising certain levels of unavoidable deferred tax.

Investments in JVs are revalued based on an estimated fair value of such investments. Norwegian Property has adopted the second option in the EPRA BPR guidelines to adjust for deferred tax, estimating the real tax assets and liabilities based on how the company has previously carried out transactions and otherwise utilised existing tax positions. The fair value of financial instruments that are used for hedging purposes are excluded.

EPRA Net Tangible Assets (NTA)		30.09.2022	30.09.2021	31.12.2021
IFRS equity	NOK mill.	13,057.5	12,185.1	12,836.6
Revaluation of investments made in JVs	NOK mill.	1,108.2	1,185.0	1,258.0
Net Asset Value (NAV) at fair value	NOK mill.	14,165.8	13,370.1	14,094.6
Reversal deferred tax liability as per balance sheet	NOK mill.	1,872.6	1,506.5	1,685.8
Adjustment for estimated fair value of deferred tax ²	NOK mill.	55.1	192.6	182.1

Net Tangible Assets (NTA)	NOK mill.	15,914.2	15,113.0	15,989.5
Outstanding shares at period end (million)	Mill. shares	643.6	643.6	643.6
NTA per share (NOK)	NOK	24.73	23.48	24.84

² Estimated fair value of deferred taxes where the estimated fair value of the tax asset related to carry-forward losses are greater than the estimated fair value of relevant tax liabilities. The calculations assume that carry-forward losses can be utilised over the next 5 years with a discount rate of 5 per cent. The real tax liability related to the gains/losses accounts is estimated on the basis of the annually depreciation rates in the Norwegian tax legislation and a discount rate of 5 per cent. The estimated fair value of the deferred tax liability related to the temporary differences of properties as at 30 September 2022 has been calculated to 3.6 per cent based on a discount rate of 5 per cent and the assumption that properties outside Aker Bryage are realised over the next 50 years period in transactions structured as sale of companies in which the tax discount is 6 per cent.

EPRA Net Disposal Value (NDV)

The EPRA NDV metric represents the shareholders' value under a disposal scenario, where deferred tax, financial instruments and certain other adjustments are calculated to the full extent of their liability, net of any resulting tax.

Investments in JVs are revalued based on an estimated fair value of such investments. Financial liabilities are valued at the estimated fair value, net of deferred tax.

EPRA Net Disposal Value (NDV)		30.09.2022	30.09.2021	31.12.2021
IFRS equity	NOK mill.	13,057.5	12,185.1	12,836.6
Revaluation of investments made in JVs	NOK mill.	1,108.2	1,185.0	1,258.0
Net Asset Value (NAV) at fair value	NOK mill.	14,165.8	13,370.1	14,094.6
Fair value adjustment of financial liabilities, net of tax ³	NOK mill.	(13.5)	(21.1)	(21.7)
Net Disposal Value (NDV)	NOK mill.	14,152.2	13,348.9	14,072.9
Outstanding shares at period end (million)	Mill. shares	643.6	643.6	643.6
NDV per share (NOK)	NOK	21.99	20.74	21.87

³ The fair value adjustment related to financial liabilities is related to the valuation as shown in note 8 to the interim financial statement, where the estimated difference between the current margins and the market conditions are taken into account as well as changes in the fair value of listed bonds. Tax is taken into account with 22 per cent.

EPRA Net Initial Yield

EPRA Net Initial Yield (NIY) and EPRA "Topped-up" NIY

The EPRA Net Initial Yield metrics presents annualised rental income based on the cash rents passing at the balance sheet date, less non-recoverable property operating expenses, divided by the market value of the property and increased with estimated purchasers' costs. The EPRA NIY is a comparable measure for portfolio valuations.

The EPRA "Topped-up" NIY metric incorporates an adjustment to the EPRA NIY in respect of the expiration of rent-free periods or other unexpired lease incentives such as discounted rent periods and step rents.
